

Ammi Ministry Newsletter August, 11, 2018

Shalom in the name of Jesus,

Donna and I are now back at our home in Southwest Florida. What an amazing journey we had in Columbia. We were very impressed with the high level of professionalism and personal care that we received at Bioxcellerator's clinic. The clinic head Dr. Carlyne Halpert, is one of the most caring doctors we've ever come across. The rest of the support staff was likewise very helpful and accommodating to our medical and practical needs. We were attended to not only by Dr. Halpert, but by a world-class neurosurgeon, an orthopedic surgeon, and by a doctor who specializes in spinal treatments.

Dr. Espania placed stem cells in my L 4 & 5 discs, and along my spine. Well it takes a while for the sales to work, already experienced a reduced amount of neuropathy.

Doctor is doing a spinal tap. After withdrawing an exact measurement of the spinal fluid, they replaced it with stem cell fluid. This will go up and circulate around Donna's brain. These cells have the potential to cause regeneration of cells in damaged areas.

It usually takes 4 to 9 months to see all the benefits of the treatments. I've already experienced a reduction in my neuropathy episodes, and overall sense of well-being. People who have seen me here in our home area say there is an amazing difference in my appearance. A more vital and joyful countenance (see pictures).

Our last day in the clinic. We greatly appreciated their very attentive and helpful staff and doctors.

Over the first weekend, We went to the largest mall in the city. This was right before the annual festival of flowers. The mall decorated the central court with 180,000 real flowers.

Sometime in the near future I will need physical surgery to open up the nerve canal in my L4 & 5 discs. The neurosurgeon who operated on my back me is amazed I can walk as far as I can. The day after he operated on my back, I was able to walk miles with no pain.

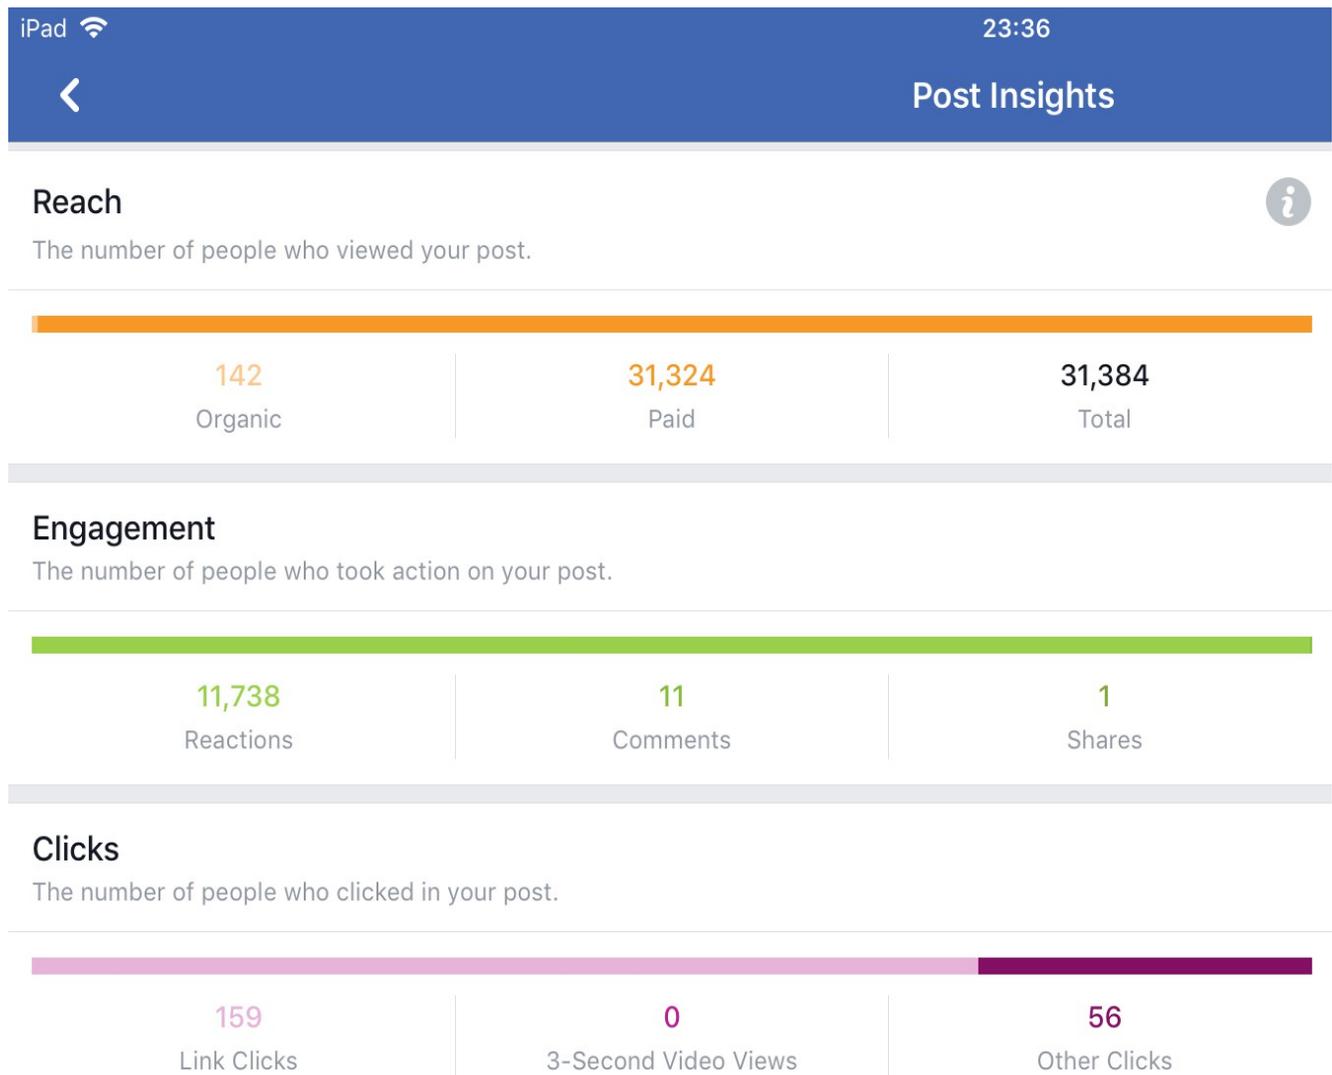

Donna is also feeling better, but the doctor predicted that the orthopedic injection she received in her left rotator cuff area might give her more pain for a month. Unfortunately that has turned out to be the case, at least fo now. So please pray for her to have a reduction of pain. Donna had two spinal taps where they remove the amount of spinal fluid, and replaced it with stem cell solution. The purpose of this is to get the stem cells into her brain area to help regenerate the areas that have been damaged by auto-immune disease.

I'm learning more about stem cell processing and the difference between some of the new medical centers that are opening to provide stem cell treatment, and the type of cells that

were produced for our treatment. There are differences in our quality of cells used in stem cell treatments. The goal of our clinic is to provide excellent treatment with the best stem cell production process. As I learn more, I will let you know when I'm ready to explain things in more detail and those that are interested can get in touch with me. This is important because there are stem cell centers popping up across America, since the FDA has approved orthopedic and cosmetic stem cell treatments.

At this point we have received \$8,200 in donations, and a supporting Church has provisionally approved a \$2,000 one time gift. This gift still had to go through two more committees to be finalized. Our total expenses are approximately \$18,000 for the treatments, airfare, hotel, and incidentals. For the amount of cells we received, and the quality of the doctors who treated us, this is far below what it would normally cost for two people receiving treatments. We are very grateful for the clinic making this available to us at a reasonable cost. If the provisional gift of \$2,000 comes through, will still be \$7,800 below our expenditures.

Facebook ad reaches 32,324 people with 11,783 responses. Mostly young jewish people in Brazil.

Brazil has the second largest Jewish population in South America. 120,000 Jewish people reside there. Our Facebook ad ran for 20 days. It was the article on Isaiah 53, that I emailed to you about a month ago. I am happy to report that 11,115 people aged 13-35 read the article. 10,330 of those who responded were 17 years old or younger. This is wonderful news since young people are much more willing to look at information that is different than their current Facebook ads are configured so that you can have them go to people that have certain interests. themes. The people who responded to the ad, have a high possibility of being Jewish because of their interest people left comments. I'm interacting with these comments, sometimes using Google translator to respond in Spanish.

We need a volunteer who could translate our brief articles into Spanish. If you are willing to help, please e-mail at rone1701@icloud.com.

Our next advertisement target will be Argentina. Argentina has the largest Jewish population in South America, and the third largest Jewish population in the Americas. Today, approximately 181,500 Jews live in Argentina. Most of Argentina's Jews live in [Buenos Aires](#), [Córdoba](#) and [Rosario](#). Argentina's Jewish population is the largest in Latin America, and the third-largest in the Americas (after that of the United States and Canada). It is the seventh-largest in the world. Additionally, Buenos Aires is the eighth largest Jewish city in the world by population. The government has recognized major Jewish holidays: it authorizes Jews to have two days of vacation each for [Rosh Hashanah](#), [Yom Kippur](#), and the first two and last two days of [Passover](#). Our advertisement will focus on the three urban centers with large Jewish populations.

Please pray for a Spanish-speaking volunteer to help us, and for the article to touch many hearts and open up dialogues with many people. Our Creator allowed the human mind to create the Internet, let's use it for His Glory.

In September, the Jewish high holidays, [Rosh Hashanah](#), and [Yom Kippur](#), will occur. This is the time when religious Jewish people reflect on the sins in their life, and seek cleansing from God. Please pray during this period of time that will people will see our advertisements focusing on these two God appointed remembrances and be influenced by God's word.

We are always sick encouraged when we hear from people who are receiving this newsletter. Just a brief email or letter letting us know you're praying for us is a great encouragement. If you would like to call us the phone number is, 215-843-1764.

God bless you,

Ron and Donna Elkin
